Alakahia, Portharcourt, Nigeria.

FULLSTACK SOFTWARE DEVELOPER

Professional Summary

Motivated Web Developer with strong skills in HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TailwindCSS, and Bootstrap, capable of building responsive, user friendly interfaces. Proficient in Node.js, Express.js, REST APIs, and experienced with MySQL, PostgreSQL, and MongoDB for database-driven applications.

I have hands-on experience integrating payment gateways, SEO optimizations, and CMS platforms (WordPress, WooCommerce, Shopify), making me versatile across both custom and CMS-based projects. Skilled in using Git/GitHub for collaborative workflows and version control.

Eager to contribute to world-class web experiences, learn quickly, and grow into a full time role. Known for clean, maintainable code, a problem-solving mindset, and a strong commitment to delivering quality results in remote team environments.

STRENGTHS AND EXPERTISE

- Programming Languages: **JavaScript, TypeScript.**
 - Frontend Technologies: **React.js, Vue, Angular, JQuery, Redux, CSS , Sass, Less, Stylus, Tailwind CSS, Bootstrap, Responsive Web Design, UI/UX Design.**
 - Backend Technologies: **Node.js, Express.js, NestJS, GraphQL, Prisma.**
 - Database Management: **MySQL, MongoDB, firebase, postgresQL .**
 - Web Applications: Progressive Web Apps (PWAs), **Webpack.**
 - Version Control, Deployment & Collaboration: **Docker, Git, CI/CD Pipelines.**
 - Optimization: Performance tuning, **SEO** best practices.
 - Testing: **Jest, Cypress.**
 - Agile methodology, Scrum, DevOps practices, **AWS, GCP**, Microsoft Azure, Serverless Architecture.
-

PROFESSIONAL EXPERIENCE

Software Developer - Vemals
Nigeria

December 2024 - Present

Accomplishments:

- Built and optimized web applications using Node.js, Express.js, Next.js, and PostgreSQL, ensuring efficient API integrations and secure database management.
- Designed and implemented responsive front-end interfaces with Next.js, TailwindCSS, and Bootstrap, delivering user-friendly and accessible applications.
- Integrated REST APIs and improved backend workflows for data processing, reporting, and user management.
- Enhanced the Vemal Resources platform by developing scalable features for scheduling meetings, accessing information, and client communication.
- Applied SEO best practices and performance optimizations, improving UX and overall application speed.
- Collaborated with cross-functional teams (UI/UX, marketing, leadership) to ensure technical solutions aligned with business objectives.

Software Developer - Cinfores Limited

September 2023- February 2024

Nigeria

Accomplishments:

- Developed and deployed the PayPanel App, building secure payment processing and seamless user interactions using React.js, TypeScript, Node.js APIs, and GraphQL.
- Designed and implemented the Supavyse Task Management App with Next.js, Bootstrap, and Firebase authentication, streamlining task assignments and progress tracking.
- Built an HR Management System leveraging React Query, Redux, and GraphQL, enabling scalable employee data management and payroll processing.
- Collaborated with UI/UX designers to convert prototypes into responsive, accessible interfaces, ensuring mobile-first and cross-browser compatibility.
- Maintained and optimized the company website (cinfores.com), applying modern design trends, SEO improvements, and performance tuning.
- Worked closely with the technical team and cross-functional departments to deliver projects on time, meeting client and business requirements.

Software Developer - Devheads

December 2023 - November 2024

USA

Accomplishments:

- Designed and developed RESTful APIs with Node.js and Next.js, integrating seamlessly with PostgreSQL for secure and efficient data management.
- Built responsive and user-friendly applications using React.js, TypeScript, and Sass, optimizing UI performance and accessibility across devices.
- Implemented backend solutions with Prisma ORM, enabling real-time data processing and analytics.
- Applied scalable cloud practices using AWS (S3, Lambda, DynamoDB), ensuring cost-effective and high-performing deployments.
- Contributed to AI-driven features, integrating machine learning models into web apps to improve automation and user experiences.
- Led code reviews and mentored team members, promoting clean code, maintainable practices, and collaborative development culture.
- Collaborated with global cross-functional teams to deliver innovative web solutions aligned with business goals.

Frontend developer - NewsPedia

December 2021- July 2022

India

Accomplishments:

- Spearheaded the frontend development of the NewsPedia platform from scratch using React.js, Flux, and Webpack, delivering a modern, responsive, and scalable interface.
- Collaborated closely with designers and backend developers to ensure seamless integration of APIs, aligning technical execution with business vision.

- Implemented responsive layouts and reusable components, enhancing accessibility and usability across devices.
- Delivered a visually engaging and intuitive UI that improved user engagement and brand presence, driving higher satisfaction and adoption.

Lead Software Developer - Nanohertz Limited

October 2020- Present

Nigeria

Accomplishments:

- Designed and implemented robust backend solutions with Node.js and MySQL, delivering secure booking functionalities tailored to business requirements.
- Developed responsive and scalable front-end interfaces using React.js, Redux, and Next.js with TypeScript, ensuring smooth and modern user experiences.
- Led end-to-end development of the official Nanohertz booking platform with TailwindCSS, enabling customers to seamlessly access information, schedule meetings, and contact the company.
- Enhanced UX and performance by integrating user feedback, refining workflows, and optimizing system responsiveness.
- Collaborated with design, marketing, and leadership teams to align technical solutions with business objectives, achieving measurable results.
- Applied unit testing with Jest to ensure code quality, reliability, and maintainability across projects.

Software Developer - Astella

March 2018 - September 2019

Nigeria

Accomplishments:

- Updated and maintained the hospital's official website using React.js and Bootstrap, delivering a more responsive and user-friendly experience for patients and staff.
- Built and optimized backend operations with Node.js and MongoDB Atlas, ensuring secure appointment booking and patient record management.
- Designed and deployed efficient database solutions, reducing load times by 25% and improving system reliability.
- Collaborated with the IT team to troubleshoot issues and implement new features, applying Cypress for testing to maintain high reliability.
- Conducted website performance audits and applied SEO best practices, which increased traffic and search visibility.

LEADERSHIP & COMMUNITY IMPACT

Web Development Trainer

2020 – Present

- Trained and mentored high school and college students in web development, covering fundamental and advanced concepts in **Redux, flux, webpack, Javascript, Express.js, React, Vue, Mongoddb, Node.js**, and **CSS** frameworks.
 - Developed structured lesson plans and hands-on projects, enabling students to build portfolio-ready applications and gain real-world experience.
 - Guided students in understanding career paths in tech, offering personalized mentorship and resources for continuous learning.
 - Inspired and empowered over **23** students to pursue careers in technology and software development, fostering growth and innovation in their communities.
 - Organized workshops and coding bootcamps tailored to beginners and intermediate learners, ensuring inclusivity and accessibility in tech education.
-

EDUCATION

- Bachelor of Engineering (B.Eng), Electronics and Computer Engineering,
Offshore University of Port Harcourt
- Certified Software Developer Intern,
Cinfore Limited

2018 – 2023

6 months
